Circulex Frame

Circulex Frame

Frame Features

Overview

The Circulex™ model frame is one that has been designed by Canopy Outdoor after more than 10 years of customer feedback and development. We have finally solved the puzzle of how to make extending legs in a circular profile and our Circulex™ range is the result.

The Circulex™ frames are designed to be workhorses. Both heavy duty, but at the same time light and easy enough to use.

Circulex Benefits

- Circular tubing on legs – the strongest tubing!
- Commercial construction, suited to all applications
- Up to 20% lighter in weight than other comparable products, so easier to use.
- Composite connectors mean you don't have to remove the top when closed

Circular Tubing

Circular tubes in the legs are the strongest tubes. Ideally suited to marquees who experience force from all directions.

- Strongest tubing shape
- Best weight for strength

Reliable Operation

This marquee frame is designed to be easy, fast and strong. It is suited to going up and down all day in all conditions.

- Designed for high reliability
- Very simple to put up and down

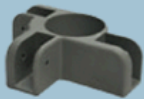

Low in Weight

Keeping weight low is important to make it easier to use. We have saved up to a 20% in weight compared to similar products.

- Up to 20% less weight than competitor products
- Less weight means easier to use

Composite Connectors

Metal connectors require you to remove the top off the frame when you close it. Composite connectors are strong and backed with our 10 year guarantee.

- As strong as any metal connectors
- 10 year replacement guarantee

5 Year Warranty

Included with the marquee is an amazing industry leading 5 year warranty on all Circulex™ frames to be free of material and manufacturing faults.

- Peace of mind
- Best warranty in the industry!

10 Year Guarantee

You break any connector, footplate, joiner etc through normal use at any time in the next 10 years, we will give you replacements for FREE.

- We have confidence in our connectors
- We will replace broken connectors for 10 years

Available Sizes

The 35 series is available our three most popular sizes.

Our Circulex™ is available in our largest range of sizes. Proper design and engineering of the frames means we have been able to maintain high strength while keeping weight low making the marquees very manageable.

Dimensions	Weight
2.4m x 2.4m	20kg
